

Course Material

1. Click on **Course Material**.

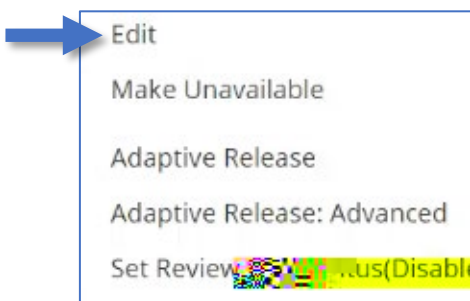

2. Click on the **Unit 1 folder** to customize the content. **Tip:** Note that you can move items within a unit.

Tip: Adding a tab name to the content you provide helps in a description or students a brief overview or introduction on what to expect for that particular reference within week or unit. So this can also use this information as our need to review course material.

3. **Edit.**

4. You can change the Name

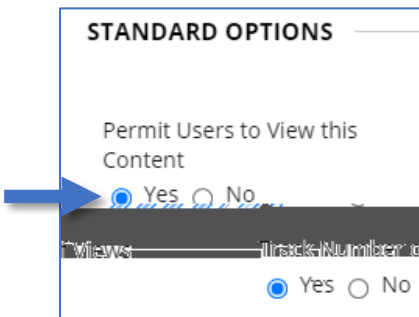

5. Below the Name, there is a text box to enter a brief description of the folder

Tip: An introduction of a folder can be provided to allow students to know a subject or topic

6. Below the Attachments to content, there are **Standard Options**. By default, **Permit Users to View this Content** is set to **Yes**. If that is set to **No**, students will be unable to see the section

7. Set **Track Number of Views** to **Yes**. This will generate a report on the number of views of the content

8. In the **Select Data and Time** ~~pane~~ **Display After** ~~pane~~ **Display After** pane, select the folder you want to display after the folder you want to select. If you want to display the folder
